

AcousticGuitar FREE

Thank you for downloading AcousticGuitar FREE!

AcousticGuitar FREE is a Stereo STEEL strings Acoustic Guitar 16bit 48Khz sample library for Kontakt 2, 3 and 4 coming directly from the “big Brother” AcousticGuitar.

Like the FULL libraries It is recorded stereo with microphones and it has round robin for alternate notes, full sustain, natural decay.

- 16bit 48Khz dry STEREO samples.
- 315 dry samples recorded with mics
- Full sustain,
- Natural decay (no loops),
- Round robin for alternate picking.
- Fret noises
- Noise releases

What's the difference with the AcousticGuitar FULL library?

- The FREE ver. includes just one of the patch of AcousticGuitar FULL. It includes the finger patch while the AcousticGuitar FULL consists of 2 other Patch:

1 Pick Patch

2 Strumming Patch, an incredible Kontakt patch that allow you to “STRUM” your keyboard just playing chords. [Watch the video](#)

- It doesn't have any key swiches while the FULL has Slides, Hammer ons, Trills, Harmonics. more info [Here](#)

- The FREE ver. is 16Bit 44khz while the FULL is 24Bit 96Khz.

- The Full version has more layers per key.
